

Termination of apartment

Name: _____

Personalnumber: _____

Address: _____

Phone: _____

Wish for earlier rent out:

Wish to have the apartment rented out earlier from

If the apartment is rented according to the desired date, the lease agreement is definitively terminated and removal must take place at the time specified.

Pre-inspection: In all our family apartments, a pre-inspection is carried out in connection with termination where you must be present. At the pre-inspection, which takes place within 2-3 weeks after the termination, an assessment is made of the condition of the apartment and what need for maintenance there is (the time you will see on your removal confirmation). The assessment is made in order to be able to plan for any maintenance measures that must be carried out and to inform you as a moving tenant about damage and abnormal wear and tear. Blir lägenheten uthyrd enligt önskat datum, upphör hyresavtalet definitivt och avflyttning skall ske vid den tidpunkt som angivits.

Final inspection: In connection with your move, we will do an inspection of your apartment. The time for inspection must be booked no later than two (2) weeks before moving out on tel. 0470-59 90 00.
